Chronicles of Berk

Summary: Set after HTTYD2. When a mysterious boat arrives in Berk, Hiccup and the gang are dragged into a battle to save a clan from the return of an old enemy. Contains a bit of HiccupxAstrid, as well as some OCxOC pairings. T to be safe

It started as an ordinary day on Berk. Hiccup, the young chief, woke up, as usual and walked downstairs. Toothless accompanied him. When he got downstairs, he was surprised to find no sign of his mum. Then, he heard the shouts from outside. He quickly changed than ran out to see what the fuss was about. He found the majority of the village down by the docks. He pushed through the crowd and saw what the commotion was about, Sailing in was a wrecked boat. When it stopped, he sent people aboard to search it. The Vikings found a crew of about 10 men, women, and young adults, similar in age to Hiccup. They were all unconscious, and the Vikings rushed them to the infirmary where Gothi and others tended to them. A while later, Hiccup, with his mum and some others came to check. Immediately, one of the visitors jumped out of their bed and kneeled in front of Valka.
>"Oh, Valka of Berk." Said the person "I pray you forgive us"
"There is nothing to be forgiven. You were unconscious, so this isn't trespass." Said Valka
>The stranger, standing up then asked "Where is Stoick?"<br>"My father is dead" said Hiccup, sombre
>"And who are you?" asked the stranger
"Hiccup Horrendous Haddock III, the chief of Berk" replied Hiccup "May I ask you the same. I do not recognise you."
>"You wouldn't," said Valka "You were only a babe when they last visited. This is Odin Tyr-fist, the leader of the Valhalla Warrior tribe. Is Fjorgyn here?" She looked around then spotted

someone
"Fjorgyn!" she shouted and ran over
>Hiccup left the infirmary and took a breath, then went off to fill his duties. When the visitors found out about the dragons, they were apprehensive at first, but weren't violent and soon got to tolerate the reptiles<p>

Later, in the great hall, Odin set out the story of how they ended up the way they did.
>"We were on our island, going through our daily routine" said Odin, "when suddenly, one of our lookouts spotted an armada of ships. I can't remember much about them, though. Suddenly, the ships attacked, firing flaming arrows at us. I was able to get most of the tribe onto ships then we sailed off. I can't remember much after that point but I remember our boat got hit, and I remember a person. He had tall horns on his helmet, what looked like a scarred face and he was maniacal. I can't remember anything else"
Hiccup left the feast shortly after and went for a flight on Toothless. Soon though, he realised he wasn't the only person flying.
>"Hey, Hiccup" said a voice above him. Hiccup looked up to see Astrid, flying upside down. The 2 flew on then landed on their 'private' island, Itchy Armpit. They didn't talk for a while, then Astrid broke the silence.
"So, I heard about what Odin said." Said Astrid "Who do you think attacked them"
>"I have quite a good idea." Said Hiccup "maniacal with a scarred face. It's Dagur.<p>
